## WORN OUT

After the day's work many people feel weak, tired and nervous-all worn out. They suffer from indigestion, constipation, dull, heavy headaches and dizziness. They feel more dead than alive-miserable. This atter weariness is a lorerunner of nervous prostration. It should be stopped at once. The system needs building up.

Tabules, the standard and modern family remedy, will do it. They get at the seat of the trouble—the stomach, bowels or liver. They remove the cause and the cure follows. They act as a tonic, build up the system, promote regular habits, clear heads, sound sleep, strong nerves and assure you of health and happiness. One gives relief.
